Process Mining with the Celonis Execution Management System

Reveal and fix hidden inefficiencies - fast

Get a **360° view** of your business execution

Understand root causes of process friction

Empower your people to reach new levels of **performance**

An experienced team to create meaningful business value

Our Management Consultants understand your business and ensure that your goals are clearly defined, communicated, and reached.

Business

Our Life Sciences experts are familiar with R&D, laboratory, and manufacturing. They translate insights into actions, while ensuring regulatory compliance.

People

Our Celonis Experts create an end-to-end visibility of your processes, perform holistic data analysis, and enable data-driven actions.

Technology

Our offer for a 360° X-Ray view

01

» One pilot process

From either Supply Chain, Production or Order-to-cash

02

» Three use cases

And free use of the Celonis Academy

03

» First insights after 6 weeks

Plus a 6-month Celonis trial period on top
