

Global Internship Program

A platform for interns to
upskill in process mining

What is the Celonis Global Internship Program?

The Global Internship Program (GIP) is a **free training program** specially designed by Celonis Academic Alliance for interns.

GIP provides a unique platform for interns to **upskill in process mining and Celonis** knowledge by participating in a comprehensive 1-week training.

Interns joining the program will gain valuable new skills in a dynamic and interactive environment.

Throughout the week, participants will:

- Join daily live online sessions led by process mining experts
- Take part in guided online learning paths
- Receive a Celonis learner badge upon completion
- Meet industry experts and learn from them directly

Content structure:

A total of 6h live + 12h homework

Live sessions & touchpoints everyday

Expert panel on Thursday

Whether you are an intern or an employer, register now to secure a place in the program!
