

PRODUCT DESCRIPTION:

Celonis Online Training Platform

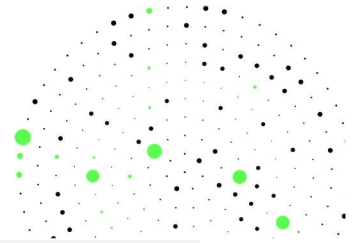

The Celonis Online Training Platform offers Training Tracks for various user levels, including explanatory videos, interactive tours through the software, exercises, and access to a personal training environment. The online training offering is free-of-charge for the Celonis Execution Management System, and for unlimited users.

1. Feature Overview

The Celonis Online Training Platform allows access to two online applications. First by accessing Our Training Platform (<https://lms.celonis.com/>) the Learner can attend structured online courses with manifold explanations, interactive modules, videos, exercises and case studies regarding Celonis Core Mining Engine. Second by logging into our Celonis Training Applications the Learner can navigate directly within the Celonis Execution Management System, complete Guided Learning Tours and work on practical exercises and check his/her progress. The following features are included:

FEATURE	DESCRIPTION
STRUCTURED ROLE-BASED ONLINE TRAINING EDUCATION VIDEOS	Depending on the role a Learner chooses; a structured learning path (Training Track) enables the Learner to train step-by-step. Up-to-date Education Videos outline all key elements, functionalities and applications within Celonis Core Mining Engine
CONTINUOUS PROGRESS REVIEW INTERACTIVE MODULES AND EXERCISES	The Progress Review displays the Learners current status with respect to the chosen learning path. Interactive Modules and Exercises help the Learner to check his/her progress and understanding of the training contents. The exercises are structured with respect to the learning path.
ACCESS TO CELONIS TRAINING APPLICATION	Access to Our Celonis Training Applications allows the Learner to not only watch the Education Videos but parallelly work with Celonis Core Mining Engine on training data to provide an interactive, hands-on learning experience.

PRECONFIGURED ANALYSES	Preconfigured analyses teach the Learner how to work with existing process evaluations and how to create interesting use cases.
LIMITLESS TRAINING CONSUMPTION	The Learners have no time limitations regarding their consumption of training content.

2. System Requirements

The Learner can access the Celonis Training Cloud by using a common up-to-date web browser in the Learners personal computer, mobile or tablet. Internet access is required.
