

# Meet the Accounts Payable Operational App

Put AI to work to drive the AP outcomes you want.

# Accounts Payable is the backbone of your Finance operations.

Processing invoices as productively as possible and paying at exactly the right time can have a huge strategic impact on working capital, operating margins and effective cash preservation.

Yet for most AP departments, that kind of impact is nothing but a pipe dream — because chronic operational friction is bogging down their processes.

This is what it looks like:

Sounds familiar? Then you're running at a fraction of your full potential.

### It doesn't have to be that way.

# **Discover a new way of working**

Celonis' Operational App intelligently optimizes your AP processes to drive outcomes and empower employees.

Combine the power of AI, process mining and automation to extract the value buried in your existing systems. Sense friction and drive intelligent action to achieve the outcomes you've set.

# **How it works**

Celonis prioritizes the work and mobilizes every employee into action, automatically.

Celonis surfaces blockers and sorts invoices based on their impact on the outcome.

### **3** Take intelligent action

Get smart recommendations at every level of the organization to drive your outcomes.

### What it looks like in action

celonis.com/accounts-payable

# What it means at every level of the business

### **Executives steer more confidently**

With **complete visibility** into realtime performance against KPIs, and an **automated pipeline of opportunities** sorted by potential impact, driving outcomes has never been easier.

### Managers act more proactively

**Continuous real-time analysis** automatically surfaces process blockers — and their recommended fix. Take care of them with **automated action**.

### AP clerks work more efficiently

Celonis **automatically prioritizes invoices** and **recommends next best actions** according to the outcome you're working towards — like on-time payments.
