EcoVadis Ratings

EcoVadis Ratings is a sustainability assessment solution that supports companies and their trading partners in their transparency and sustainability practices by providing sustainability ratings based on trading partner assessments and access to tools that support corrective active management.

In addition, the subscriber will have access to (i) Ecovadis experts to assist with its sustainability program and (ii) Ecovadis Academy.

1. Component Overview

COMPONENT	DESCRIPTION
EcoVadis Ratings	Access to the EcoVadis Ratings solution, including suppliers' sustainability practices, corrective action management, and other tools.
Vitals	The EcoVadis Vitals light questionnaire provides direct supplier input and documentation on key risk topics throughout your supply base.
Customer Onboarding	A method-driven approach to ensuring proper set up and deployment of EcoVadis, including a series of workshops and best practice sharing designed to set up a strong and successful foundation for their sustainable procurement goals with EcoVadis.
EcoVadis IQ Plus	The EcoVadis IQ Plus solution provides instant risk profiling and mapping of companies throughout your supply base. IQ Plus includes DocScan contactless AI data mining, and Live News Monitoring, which provides up-to-date adverse media insights to help your team address risk hotspots.
EcoVadis Carbon Action Manager	The EcoVadis Carbon Action Manager (CAM) is a supplier engagement solution for GHG management that empowers you to engage with your trading partners based on their maturity level to accelerate decarbonization.
API	Data integration license (REST API) between EcoVadis and up to two (2) third party solutions, either downstream or upstream.
Single Sign-On (SSO)	Single sign-on (SSO) authentication capability facilitates access to the EV10 platform.
EcoVadis Academy	Access to the EcoVadis Academy - Learning Management System- with access to content both for rated companies and procurement specific. Includes LMS reporting capabilities.

Legend	Details
X	Not Available within the Bundle
✓	Included within Bundle
other	Details about to which extent the component is included within the Bundle

3. Metric Definition

The pricing of Your subscription will be based on the size of the Customer Revenue. Customer Revenue is the annual revenue reported on Customer's most recent audited financial statements, as made available by the relevant regulatory body (e.g., U.S. Securities and Exchange Commission, Companies House, etc.) or by You (if You are not publicly traded).

Once EcoVadis Rating is purchased, you will receive access to the EcoVadis platform and the related API, which allows You to view Your EcoVadis score and apply it for process improvement within the Celonis Platform. The EcoVadis Sustainability Rating Solution is available from Celonis only in connection with a Celonis OCPM enabled or EMS instance.

The full functionality of EcoVadis Sustainability Rating Solution is only available in a full cloud deployment.
