Data Processing Agreement

This data processing Agreement (the "DPA") details the parties' obligations on the protection of Personal Data associated with Our processing of Your Personal Data on Your behalf within the scope of the applicable Order (hereinafter, the "Agreement"). You are the controller of the Personal Data You provide to Us in the course of Our provision of the Services under the Agreement ("Controller") and You appoint Us as a processor ("Processor") to process such Personal Data (hereinafter, "Data") on Your behalf (hereinafter, "Contract Processing").

§ 1 Scope, Duration and Specification of Processing of Data

The scope and the detailed stipulations on the type and purpose of Contract Processing are defined in the **Exhibit**.

Except where the DPA stipulates obligations beyond the term of the Agreement, the duration of this DPA shall be the same as the term of the Agreement.

§ 2 Scope of Application and Responsibilities

1. Processor shall process Data on behalf of Controller. Such Contract Processing shall include all activities detailed in the Agreement. Within the scope of this DPA, Controller shall be solely responsible for compliance with its obligations under the applicable statutory requirements on data protection, including, but not limited to, the lawful disclosure and transfer of Data by Controller to Processor.
2. Controller's individual instructions on Contract Processing shall, initially, be as detailed in the Agreement. Controller shall, subsequently, be entitled to, in writing or in a machine-readable format (in text form), modify, amend or replace such individual instructions by issuing such instructions to the point of contact designated by Processor. Instructions not foreseen in or covered by the Agreement shall be treated as requests for changes to the statement of work. Controller shall, without undue delay, confirm in writing or in text form any instruction issued orally.

§ 3 Processor's Obligations

1. Except where expressly permitted by Article 28 (3)(a) GDPR, Processor shall process data subjects' Data only within the scope of the Agreement and the instructions issued by Controller. Where Processor believes that an instruction would be in breach of applicable law, Processor shall notify Controller of such belief without undue delay. Processor shall be

entitled to suspend performance on such instruction until Controller confirms or modifies such instruction.

2. Processor shall, within Processor's scope of responsibility, organize Processor's internal organization so it satisfies the specific requirements of data protection. Processor shall implement technical and organizational measures to ensure the adequate protection of Controller's Data, which measures shall fulfil the requirements of the GDPR and specifically its Article 32. Processor shall implement technical and organizational measures and safeguards that ensure ongoing confidentiality, integrity, availability and resilience of processing systems and services and shall implement a process for regularly testing, assessing and evaluating the effectiveness of technical and organizational measures for ensuring the security of the processing. Controller is familiar with these technical and organizational measures, and it shall be Controller's responsibility that such measures ensure a level of security appropriate to the risk. The parties agree to refer to the existing certification of Processor by Kiwa International Cert GmbH in accordance with **DIN ISO/IEC 27001:2015** which is considered sufficient evidence for these purposes by Controller and which is available on the website of Processor (www.celonis.com).
3. Processor reserves the right to modify the measures and safeguards implemented, provided, however, that that the level of security shall not be less protective than initially agreed upon.
4. Processor shall support Controller, insofar as is agreed upon by the parties, and where possible for Processor, in fulfilling data subjects' requests and claims, as detailed in chapter III of the GDPR and in fulfilling the obligations enumerated in Articles 33 to 36 GDPR.
5. Processor shall ensure that all employees involved in Contract Processing of Controller's Data and other such persons as may be involved in Contract Processing within Processor's scope of responsibility shall only do so within the scope of the instructions. Furthermore, Processor shall ensure that any person entitled to process Data on behalf of Controller has undertaken a commitment to confidentiality under terms similar to the confidentiality terms of the Agreement. All such confidentiality obligations shall survive the termination or expiration of such Contract Processing.
6. Processor shall notify Controller without undue delay if Processor becomes aware of any Data breaches within Processor's scope of responsibility.

7. Processor shall implement the measures necessary for securing Data and for mitigating potential negative consequences for the data subject; the Processor shall coordinate such efforts with Controller without undue delay.
8. Processor shall notify to Controller the point of contact for any issues related to data protection arising out of or in connection with the Agreement. The **Exhibit** provides for a list of the initially designated persons.
9. Processor shall correct or erase Data if so instructed by Controller and where covered by the scope of the instructions permissible. Where an erasure, consistent with data protection requirements, or a corresponding restriction of processing is impossible, Processor shall, based on Controller's instructions, and unless agreed upon differently in the Agreement, destroy, in compliance with data protection requirements, all carrier media and other material or return the same to Controller.
10. In specific cases designated by Controller, such Data shall be stored or handed over. The associated cost for doing so and protective measures to put in place shall be agreed upon separately, unless already agreed upon in the Agreement.
11. Processor shall, upon termination of Contract Processing and upon Controller's instruction, return all Data, carrier media and other materials to Controller or delete the same.
12. Where a data subject asserts any claims against Controller in accordance with Article 82 of the GDPR, Processor shall support Controller in defending against such claims, where possible at Controller's cost as set out in Section 6 para. 3.

§ 4 Controller's Obligations

1. Controller shall notify Processor without undue delay, and comprehensively, of any defect or irregularity with regard to provisions on data protection detected by Controller in the results of Processor's work.
2. Section 3 para. 12 above shall apply, *mutatis mutandis*, to claims asserted by data subjects against Processor in accordance with Article 82 of the GDPR.
3. Controller shall notify to Processor the point of contact for any issues related to data protection arising out of or in connection with the Agreement.

§ 5 Enquiries by Data Subjects

Where a data subject asserts claims for rectification, erasure or access against Processor, and where Processor is able to correlate the data subject to Controller, based on the information provided by the data subject, Processor shall refer such data subject to Controller. Processor shall forward the data subject's claim to Controller without undue delay. Processor shall support Controller, where possible, and

based upon Controller's instruction insofar as agreed upon. Processor shall not be liable in cases where Controller fails to respond to the data subject's request completely, correctly, or in a timely manner.

§ 6 Options for Documentation

1. Processor shall document and prove to Controller Processor's compliance with the obligations agreed upon in this DPA by appropriate measures.
2. Where, in individual cases, audits and inspections by Controller or an auditor appointed by Controller are necessary, such audits and inspections will be conducted upon prior notice during regular business hours, and without interfering with Processor's operations. Processor may also determine that such audits and inspections are subject to prior notice and the execution of a confidentiality undertaking protecting the data of other customers and the confidentiality of the technical and organizational measures and safeguards implemented. Processor shall be entitled to reject auditors that are competitors of Processor. Controller hereby consents to the appointment of an independent external auditor by Processor, provided that Processor provides a copy of the audit report to Controller.
3. Processor shall be entitled to request from Controller a reimbursement of costs for its support in conducting inspections where such costs have been agreed upon in the Agreement or otherwise in writing by the parties. Processor shall endeavor to limit its time and effort for such inspections to one day per calendar year, unless agreed upon otherwise.
4. Where a data protection or other applicable supervisory authority conducts an inspection, para. 2 above shall apply *mutatis mutandis*. The execution of a confidentiality undertaking shall not be required if such supervisory authority is subject to professional or statutory confidentiality obligations whose breach is sanctionable under the applicable criminal code.

§ 7 Subcontractors (further processors (or 'sub-processors') on behalf of Controller)

1. Processor shall use subcontractors as further processors on behalf of Controller only where approved in advance by Controller (in accordance with para. 3).
2. If Processor engages further Processors or subcontractors to perform any of its obligations under the Agreement it shall seek Controller's prior consent. Processor shall conclude, with such subcontractors, contractual terms necessary to ensure an appropriate level of data protection and information security.
3. Controller hereby consents to Processor's use of the subcontractors listed in the **Exhibit** to this DPA in connection with the performance of the Agreement.

Processor shall, prior to the use of further subcontractors, obtain Controller's prior approval, such approval not to be withheld except for important reasons related to compliance with Data Protection Laws.

4. Where Processor commissions subcontractors, Processor shall be responsible for ensuring that Processor's obligations on data protection resulting from the Agreement and this Annex are valid and binding upon subcontractor.

§ 8 Obligations to Inform, Mandatory Written Form, Choice of Law

1. Where the Data becomes subject to search and seizure, an attachment order, confiscation during bankruptcy or insolvency proceedings, or similar events or measures by third parties while in Processor's control, Processor shall notify Controller of such action without undue delay. Processor shall, without undue delay, notify to all pertinent parties in such action, that any data affected thereby is in Controller's sole property and area of responsibility, that data is at Controller's sole disposition, and that Controller is the responsible body in the sense of the GDPR.
2. No modification of this DPA and/or any of its components – including, but not limited to, Processor's representations and obligations, if any –

shall be valid and binding unless made in writing or in a machine-readable format (in text form), and furthermore only if such modification expressly states that such modification applies to the regulations of this DPA. The foregoing shall also apply to any waiver or change of this mandatory written form.

3. In case of any conflict, the data protection regulations of this DPA shall take precedence over the regulations of the Agreement. Where individual regulations of this DPA are invalid or unenforceable, the validity and enforceability of the other regulations of this DPA shall not be affected.
4. This DPA is subject to the laws of England and Wales and the parties submit to the exclusive jurisdiction of the English courts for any disputes arising out of or in connection with this DPA.

§ 9 Liability and Damages

The liability provisions of the Terms shall apply except as explicitly agreed otherwise in this DPA.

§ 10 International Transfers

Processor will only transfer Personal Data outside the European Economic Area (including to its group company, Celonis, Inc.) where Processor has complied with its obligations under applicable Data Protection Laws in ensuring adequate safeguards in relation to such transfer.
