Quickly check your shoe size in 3 steps!

1

Is the printout correct?  
Compare!  
3 cm

Space for  
your feet to  
unroll.

Space for  
your feet to  
unroll.

4

If your largest toe  
touches this line, the new  
shoe fits perfectly!

This size guide helps  
you to measure the length  
of your feet.

Our recommendation:  
If your measurement falls  
between two sizes, we  
recommend choosing the  
smaller size for a narrow  
foot and the larger one for  
a wide foot.

Your foot may be  
wider than the footprint  
shown. That's all right.  
The barefoot shoe's  
width will adapt to the  
natural shape of the foot.

Position your  
heel here!

2

Separate this  
card along the  
perforated  
line and put the  
card against  
a wall.

Check you shoe  
size regularly.
