Is the printout correct? Compare!
3 cm

This size guide helps you to measure the length of your feet.

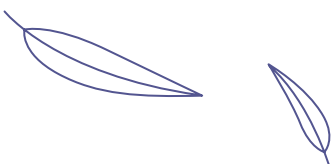

Our recommendation:
If your measurement falls between two sizes, we recommend choosing the smaller size for a narrow foot and the larger one for a wide foot.

Your foot may be wider than the footprint shown. That's all right. The barefoot shoe's width will adapt to the natural shape of the foot.

2
Separate this card along the perforated line and put the card against a wall.

3
Position your heel here!

Check you shoe size regularly.
