Quickly check your shoe size in 3 steps!

1

Is the printout correct?
Compare!
3 cm

Space for
your feet to
unroll.

Space for
your feet to
unroll.

4

If your largest toe
touches this line, the new
shoe fits perfectly!

This size guide helps you
to measure the length
of your feet.

Our recommendation:
If your measurement falls
between two sizes, we
recommend choosing the
smaller size for a narrow
foot and the larger one for
a wide foot.

Your foot may be
wider than the footprint
shown. That's all right.
The barefoot shoe's
width will adapt to the
natural shape of the foot.
