Quickly check your shoe size in 3 steps!

1

Is the printout correct?
Compare!

3 cm

Space for
your feet to
unroll.

Space for
your feet to
unroll.

4

If your largest toe
touches this line, the new
shoe fits perfectly!

3

Position your
heel here!

2

Separate this
card along the
perforated
line and put the
card against
a wall.

This size guide helps
you to measure the length
of your feet.

Our recommendation:
If your measurement falls
between two sizes, we
recommend choosing the
smaller size for a narrow
foot and the larger one for
a wide foot.

Your foot may be
wider than the footprint
shown. That's all right.
The barefoot shoe's
width will adapt to the
natural shape of the foot.

Check you shoe
size regularly.
