WORK EXPERIENCE

Gen.G Esports

Dec. 2024 – Present

Backend Software Engineer (Contract)

Remote, Online

- Contracted to develop backend infrastructure and systems for a confidential Discord-based application supporting community engagement.
 - Designing and maintaining modular services powering event automation, user tracking, and dynamic visual generation.
 - Working across multiple project phases, adapting to changing requirements, and supporting ongoing post-launch updates.
 - Technologies: Python, Supabase, Docker, Discord API.

Razer, Inc.

Mar. 2022 – Present

Backend Software Engineer (Freelance)

Remote, Online

- Developing backend systems for AI, moderation, and support tools used within Razer's 150,000+ member Discord community to enhance engagement, safety, and automation.
 - Built scalable AI utilities and moderation layers that detect and mitigate malicious activity while fostering a welcoming environment.
 - Integrated with multiple APIs and databases to support real-time chat functions, ticketing systems, and community support workflows.
 - Technologies: Python, Supabase, MongoDB, Pinecone, LangChain, Docker, OpenAI API, Discord API.

City of Beaumont, CA

Aug. 2024 – Nov. 2024

Information Technology Intern

Beaumont, CA

- As an IT Intern, I rotated between team members and absorbed knowledge across various facets of the city's technology infrastructure.
 - Gained exposure to system updates, network management, and cybersecurity practices while learning about the operational processes that keep city services running smoothly.
 - Built a comprehensive understanding of IT functions in a government setting through hands-on learning and mentorship from experienced professionals.
 - Developed soft skills such as communication, teamwork, and problem-solving through interaction with professionals in a collaborative environment.

VOLUNTEER EXPERIENCE

Razer, Inc.

Oct. 2020 – Present

Community Administrator

Remote, Online

- Leading a team of 20 content moderators and working in Microsoft 365 to develop SoP materials.
- Regularly collaborating with Razer's community team to run events, giveaways, and other campaigns to engage and grow the community.

Beaumont High School Manufacturing Lab

Aug. 2023 – June 2024

Technical Lab Volunteer

Beaumont, CA

- Performed daily and weekly maintenance on our Creality and Bambu Labs FDM 3D printers and Formlabs SLA & SLS 3D printers.
