IS POWER

Fancy making your own safari scene? Have a go at making your own Cheetah by painting your hand and printing onto your canvas.

Why don't you have a go at making some other jungle/safari animals?

DIRECTIONS

1

Paint your palm and five fingers yellow (or be adventurous and choose your own colours).

2

Print the hand (upside down) onto a piece of paper to form the body and legs.

3

Paint the face. Start with a centre circle, then add two upper circles as ears. Finish with details.

4

Give your Cheetah some spots!

5

You have painted a Cheetah! Try adding some background elements. Savannah dirt or some tall grass perhaps...
