

THE LEGO GROUP & COMIC RELIEF ACTIVITY SHEET

FRIDAY 17 MARCH

Can you build something to make the people around you smile?

We're calling on kids up and down the country to get involved in a creative building challenge. Use your imagination to build or draw something that will make someone smile and have a positive impact on the world.

YOUR CHALLENGE

We need you to get your thinking cap on and show us what you would create to make the world a better place and put a smile on someone's face (**hey, that rhymes!**). It could be something that helps to support the environment and nature, reduces loneliness, or improves accessibility for those with mobility issues.

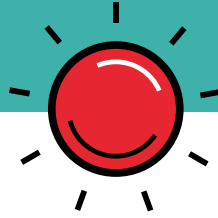

Some of our friends that could do with more smiles are Anushri who lives alone in a new area and feels very lonely and Isaiah who lives near a busy road where the air is very polluted. Find out more about them and what you could create for them here: comicrelief.com/LEGO

STEP BY STEP

1. Watch the intro video on comicrelief.com/LEGO. Discuss as a class what each of the students are thinking to create – use the character cards if needed as thought starters.
2. Encourage students to create their awesome idea (build, draw, sculpt, chisel – however they would like to make their idea come to life)
3. Once done, write a short description to go with the creation and then upload at comicrelief.com/LEGO

FACTS ABOUT SMILING

1. Did you know that smiling is our first expression that we ever learn? By around six to 12 weeks babies will begin to smile.
2. Smiling can help to put you in a better mood. If you're in a bad mood, studies have shown that smiling can help. Next time you're feeling sad, why don't you try it and see?
3. Smiling is contagious! We bet you have caught one before. If your friends are laughing, it's very hard to stop yourself from laughing too!
4. Children smile more than adults! Research shows that children smile an average of 400 times per day, compared to the typical adult who smiles only 20 times per day.

All of your awesome ideas will be looked at by the teams at Comic Relief and the LEGO Group's Build the Change impact program – a program dedicated to giving children a voice and a platform to share their ideas for a better world. Learn more about Build the Change here www.LEGO.com/buildthechange

Get your school involved in fundraising for Red Nose Day this year. Go to comicrelief.com/schools for tips and resources to make it easier than ever to take part.
