

Tips for attending your online coding session

Dos

- Have fun and be creative!
- Be ready to join five minutes before the start of the session, so you're not in a rush.
- Let an adult know the time when you'll be joining the session. You can invite them to code along with you too!
- Join your session using the link sent by the club leader. If you aren't sure how to join your session, check with an adult at home.
- Listen carefully to the instructions of your club leader. They'll tell you how the session will run and what you'll be doing.
- If you're giving feedback on someone's project, be positive and encouraging.
- Speak to a trusted adult if anything during the session makes you feel uncomfortable.

Don'ts

- Don't worry if you get stuck. Ask questions if you aren't sure about something.
- Don't interrupt when others are talking. It's important to be patient and wait your turn during the session so that everyone can take part and have fun.
- Don't share your personal information online (such as your address, phone number, or school). If you're asked to share this information online, let an adult know immediately.
- Don't take photographs, screenshots, or recordings of the session.
- Don't join the session in your pyjamas! Wear clothes that make you feel comfortable and ready to learn.
