Dear _____

We're really pleased to hear that your child is interested in joining our Code Club.

What is Code Club?
Code Club is a global movement of free coding clubs for school-aged young people. You can find out more at codeclub.org.

How does Code Club work?
Code Club provides step-by-step project guides for young people to follow so that they can create games, animations, and websites, learning the key concepts of coding at the same time.

What do the young people learn?
Code Club has resources to teach young people Scratch, HTML/CSS, Python, and more. Learning to code is more than just a vocational skill: it changes the way young people analyse and solve problems, and encourages creative thinking and collaboration.

Day of Code Club: _____

Times: _____

Club leader name: _____

Club leader contact details: _____
