PRESS RELEASE

Teréga partners with Lons Section Paloise Women's Rugby for the 2025–2026 season

Teréga, the historic operator of gas transport and storage infrastructure in South-West France, announces its partnership with Lons Section Paloise Rugby Féminin (LSPRF) for the women's rugby 2025/2026 season. Through this sponsorship, Teréga reinforces its commitment to promoting women's sport and reaffirms its strong ties to the Béarn region

"Lons Section Paloise Women's Rugby proudly champions the spirit of Béarn rugby, driven by passion and dedication. Through this partnership, we affirm our commitment to supporting those who bring local sport to life — especially women's sport — and who share our values of performance, teamwork, and pushing beyond limits."

Carolle Foissaud, Chairman and CEO of Teréga

Firmly rooted in Béarn's sporting culture, Lons Section Paloise Rugby Féminin (LSPRF) has been a driving force in the development and promotion of women's rugby — from grassroots to senior level. Born of passion, commitment and a spirit of transmission, LSPRF has embodied the excellence of Béarn's women's rugby for nearly thirty years. The journey began in 1996 with the "Filles d'Arudy", whose integration into RC Lons marked the club's lasting presence on the national rugby scene. From the creation of youth teams to becoming a club fully dedicated to women's rugby in 2015, and its integration into Section Paloise in 2021, LSPRF has grown into a recognised hub of talent and a model of sporting commitment. With five national championship titles, the Lons players have competed at the highest level — including the Top 10 and Seven Élite — helping to elevate the visibility of women's rugby far beyond the borders of Béarn.

Today, LSPRF continues to inspire young girls seeking to thrive in a team sport that fosters empowerment, solidarity and self-confidence.

"Teréga's support is a meaningful recognition of the work carried out over many years by our club and its volunteers. This partnership enables us to continue growing and provide our players with the structure and ambition they need to reach their full potential."

Lise Arricastre, President of Lons Section Paloise Rugby Féminin

This partnership strengthens Teréga's long-standing tradition of backing sport, already demonstrated by its support of Section Paloise Béarn Pyrénées (Top 14 rugby), the Teréga Open Pau-Pyrénées (tennis), the Tour Féminin International des Pyrénées (cycling), Basket Landes (women's basketball), and major events such as the Vendée Globe. Through these initiatives, Teréga reaffirms its support for sport as a driver of unity and shared values — and for women's sport as a powerful force for equality and inspiration.

About Teréga

Established in South-West France, at the crossroads between major European gas flows, Teréga has exercised exceptional expertise for over 80 years in the development of gas transport and storage infrastructures. Today, it continues to develop innovative solutions to overcome the major energy challenges facing France and Europe. A true accelerator of the energy transition, Teréga operates over 5,000 km of pipelines and 2 underground storage reservoirs representing 15.8% of the French gas transport network and 27% of national storage capacity. In 2024, the company generated turnover of €488 million (excluding balancing and congestion) and had more than 647 employees. Corporate social responsibility is at the heart of Teréga's strategy, as it embarks on the energy transition to carbon neutrality. Teréga has rolled out programmes in all areas of ESG (Environmental, Social and Governance): its employee safety and its infrastructure security via the PARI 2035 programme, sustainable development of territories and social responsibility via the ENERGIZ MOUV programme, support of philanthropic projects via the Teréga Accélérateur d'Énergies endowment fund, and reduction of environmental impacts via the BE POSITIF programme with a commitment to a 34% reduction in greenhouse gas emissions by 2030 compared to 2021 on all scopes 1, 2 and 3.
