

DECLARATION OF CONFORMITY

AKRON Ltd Skopje, the producer of AQUADEI™ glass filter media declares that the AQUADEI™ products have been designed, tested and produced to comply with, and meet the requirements of:

- **EN 16 713-1:2016** European standard addressing filtration systems for domestic swimming pools

&

- **EN 15 288-1:2018** European standard addressing filtration systems for public use swimming pools

The development and testing of the products was conducted with in-house expertise and in coordination with **The Technology and Metallurgy Faculty (TMF)** in Skopje, an integral part of University “St. Cyril and Methodius” in Skopje.

The TMF conducted a detailed 30 page study of the sorbent characteristics of the AQUADEI™ products, including sorbent characteristics regarding heavy metal ions.

This study is available at request in a bi-lingual version in English and Macedonian language.
