Toward a Sustainable Future: 
Climate & Environmental Policy in Japan & the U.S

Live Webinar: Experts Discuss the Governmental & Corporate Response to the Special IPCC Report

Monday, September 20, 7–8:15pm EDT

New York, NY (September 2, 2021)—Climate change is significantly altering the environment, damaging ecosystems and fueling extreme weather events across the world, from deadly wildfires in California and Greece to devastating downpours and landslides in Japan. Last month, the Intergovernmental Panel on Climate Change (IPCC) released a code-red report definitively stating that today’s climate crisis is human-driven—how will the administrations of Japan and the U.S. prioritize their responses? Prime Minister Suga previously pledged Japan’s commitment to carbon neutrality by 2050, while the U.S. officially announced its plan to rejoin the Paris Climate Agreement during President Biden's first hours in office. Corporations also have a critical role to play in reducing greenhouse gas emissions and contributing toward a more sustainable future. In this webinar, experts discuss climate and environmental policy in Japan and the U.S., how leading corporations are addressing this challenge, and the potential of private-public partnerships as a policy response.

Agenda: Discussion and Q&A, 7:00pm-8:15pm EDT

Admission:
Please register here, or contact the Business & Policy Program at 212-715-1208 or email register@japansociety.org. Registrants will receive a link to access the live webinar one day before the event.

Speakers:

Audrey Choi (Speaker) is Morgan Stanley’s Chief Sustainability Officer and is the founding CEO of Morgan Stanley’s industry-leading Institute for Sustainable Investing where she oversees the Firm’s efforts to promote global sustainability through the capital markets. She also serves on the Firm’s Management Committee and for four years, Ms. Choi simultaneously...
served as Morgan Stanley’s Chief Marketing Officer where she stewarded the brand to reflect
the Firm's core values of leading with integrity and exceptional ideas, and won industry awards
for best corporate strategy and media innovation as the Morgan Stanley brand reached an all-
time high. Prior to joining Morgan Stanley, Ms. Choi held senior policy positions in the Clinton
Administration, including serving as Chief of Staff of the Council of Economic Advisers, and
Domestic Policy Advisor to the Vice President. Previously, Ms. Choi was a foreign
correspondent and bureau chief at The Wall Street Journal. She serves on the boards of several
national nonprofits focused on sustainability, community development and social justice. Ms.
Choi is a graduate of Harvard College and Harvard Business School.

Dr. Naoko Ishii (Speaker) is a professor and executive vice president at the University of
Tokyo, where she is also the inaugural director for the Center for Global Commons, whose
mission is to catalyze systems change so that humans can achieve sustainable development
within planetary boundaries. She believes academia can and should play an active role in
mobilizing movements towards shared goals of nurturing stewardship of the global commons.
Before joining the university, Dr. Ishii was CEO and chairperson of the Global Environment
Facility (GEF) from 2012-2020. She formed GEF’s first mid-term strategy, GEF 2020, focusing
on the transformation of key economic systems. Dr. Ishii entered Japan’s Ministry of Finance in
1981 and served as Deputy Vice Minister of Finance from 2010-2012. She holds a B.A. in
economics and a Ph.D. in international development, both from the University of Tokyo

Miho Kurosaki (Speaker) leads analysis on Environmental, Social and Governance (ESG) in
Asia Pacific region. Prior to her current role, she managed Japan and Korea research team
analyzing Japan’s power market, economics of renewable energy and energy policy. She is a
member of the climate change expert panel for Prime Minister’s Office of Japan and an
independent advisor to RE100 initiative. She also served as a committee member of climate
change advisory panel for Ministry of Foreign Affairs of Japan and coal export policy for Ministry
of Environment of Japan. Prior to joining BNEF, she has developed Bloomberg’s ESG analytics
platform as a senior ESG analyst. She has also worked for a London based environmental
research firm, Trucost, as an analyst covering environmental risks in portfolio management.
Miho holds an MSc in Environmental Technology from Imperial College London and a BA in
Economics from Keio University.

Melanie Nakagawa (Speaker) serves as the Special Assistant to the President and Senior
Director for Climate and Energy at the National Security Council. Her work includes the U.S.
return to the Paris Agreement and advancing the Biden-Harris Administration’s policy of
integrating climate change into U.S. foreign policy and national security. Most recently, she was
the Director of Climate Strategy at Princeville Capital, leading their climate-focused strategy to
invest in global growth-stage technology-enabled companies delivering transformative solutions
to climate change, and launching their inaugural climate tech fund. Prior to her investment role,
she served in the Obama-Biden administration as the Deputy Assistant Secretary for Energy
Transformation at the U.S. State Department and was a strategic advisor on climate change to
the U.S. Secretary of State John Kerry. Earlier in her career, she was the Senior Energy and
Environment Counsel for the Senate Foreign Relations Committee and an attorney with the
Natural Resources Defense Council. Nakagawa earned a J.D. from American University Washington College of Law, an M.A. in International Affairs from American University’s School of International Service, and an A.B. from Brown University.

About the Business & Policy Program
The Business & Policy Program hosts public and invitation-only programs for the international business and policy community about the people and issues that define U.S.-Japan relations in a regional and global context. Formerly known as the Corporate Program, the Business & Policy Program offers unparalleled access to international business and policy leaders and in-depth networking opportunities for the senior executives, policymakers, academics, journalists, and other opinion leaders comprising the Program member audience. Each year, more than 4,000 executives participate in conferences, lectures, symposia, and receptions recognized as invaluable for helping Americans, Japanese, and others from Asia and around the world better grasp the financial, business, and policy challenges that affect Japan and the U.S.

About Japan Society
Japan Society is the premier organization connecting Japanese arts, culture, business, and society with audiences in New York and around the world. At Japan Society, we are inspired by the Japanese concept of kizuna (絆)–forging deep connections to bind people together. We are committed to telling the story of Japan while strengthening connections within New York City and building new bridges beyond. In over 100 years of work, we’ve inspired generations by establishing ourselves as pioneers in supporting international exchanges in arts and culture, business and policy, as well as education between Japan and the U.S. We strive to convene important conversations on topics that bind our two countries together, champion the next generation of innovative creators, promote mutual understanding, and serve as a trusted guide for people everywhere who seek to more fully appreciate the rich complexities and abundance of Japan. From our New York headquarters, a landmark building designed by architect Junzo Yoshimura that opened to the public in 1971, we look forward to the years ahead, which will be defined by our digital and ideational impact through the kizuna that we build. Our future can only be enhanced by learning from our peers and engaging with our audiences, both near and afar.

This year, Japan Society is celebrating our heritage through the 50th anniversary of our landmark building with the launch of a new distinct modern logo and visual identity. The “JS” monogram is created via overlapping, interconnected lines and shapes, reinforcing the idea of kizuna and that Japan Society acts as a platform that connects across, cultures, people, and time.
