

# Healthcare companies are becoming data-driven with DataCamp

DataCamp has 70+ hours of healthcare-specific courses and projects to help healthcare professionals work with consumer, patient, and clinical data

## Use cases

Medical image analysis

Statistics & experimental design

Genomics

AI & machine learning

"AI is going to transform the diagnostic imaging industry, whether it's enhanced productivity, improved accuracy, personalized treatment planning—all of these functions are up for grabs."

ARNAUB CHATTERJEE, SENIOR VICE PRESIDENT AT MEDIDATA SOLUTIONS
