ABOUT LAW CENTRE NI

Since 1977, LCNI has been at the forefront of using the law to drive meaningful change in Northern Ireland. As a not-for-profit legal organisation, we are committed to advancing social justice by transforming lives through innovative legal solutions. Our work spans all communities, and we are known for our independence and relentless dedication to justice.

With a proven track record in strategic litigation and policy advocacy, we create impactful change through a unique combination of legal services, training, education, community engagement, and advocacy. We provide free, independent legal advice, casework, and representation before tribunals and courts, while also empowering the community and voluntary sector with the knowledge and tools needed to address pressing legal challenges.

As a referral agency, we work in partnership with other delivery organisations to resolve critical issues facing those in need. Our extensive training programs, public legal resources, and support services ensure that everyone has access to the information they need to understand and defend their rights. Our passion for using the law as a force for transformation is unwavering, and we continue to lead the charge for justice in Northern Ireland.

Joining LCNI means becoming part of a team that believes in the power of the law to shape a fairer, more equitable society.

Our Vision

A just and equal society where people live in the dignity of their rights

Our Mission

We use the power of law for social change. To stand for everyone's rights by informing and educating people about their rights and by protecting and advancing people's rights, working collaboratively for social justice.

Our work is Lexcel-accredited and regulated by IAA. The legal work of the Law Centre is led by the Director of Legal and Senior Solicitor.

As a charity, LCNI is registered with the Charity Commission NI and is governed by a Board, all of whom give their time and expertise freely in support of our mission.

Our Values

The following values underpin all aspects of our work with each other, with clients and with other stakeholders.

Authentic

We act consistently with our commitment to social justice.

Integrity

We honour our word.

Expert

We are driven by learning and we bring expert knowledge of the law and evidence of people's experiences of the law to all our work.

Professional

We deliver quality services.

Trusted

We are credible and respectful. We build trusted relationships. We care for our clients and each other and when we commit, we can be trusted to see it through.

Independent

We work without fear or favour.

Cutting-edge

We test the boundaries of law and policy to advance the rights of people in Northern Ireland. We are creative in developing new solutions for social justice.

Inclusive

We work with and for others. We innovate to make sure our services are accessible to our clients.

WHAT WE DO

We tailor our services to meet the evolving needs of communities, including addressing unmet legal needs. Currently, our work is focused on three key areas of legal and policy expertise.

Migration Justice & Refugee Centre

We work with asylum seekers, refugees and victims and survivors of trafficking and domestic abuse to uphold their legal rights and campaigns for a fairer and more humane immigration system. We lead the Refugee and Asylum Forum, a network of organisations with direct experience of providing support and services to asylum seekers and refugees. Our policy advocacy and influencing work draws heavily on our community engagement and our legal expertise, so decision makers know and understand the impact of how law and policy is working on the ground.

“We provided legal advice to over 1,000 Ukrainians, their families and sponsors to help them with their resettlement in Northern Ireland through our work at the Ukraine Assistance Centres”.

Anti-Poverty (Social Security Rights)

LCNI works to address poverty in NI by ensuring the social security system works as an effective safety net for people when they need it. We are members of and convene the *Cliff Edge Coalition* that works to sustain and strengthen the essential welfare reform mitigations to safeguard people from the harshest aspects of social security change. Our test case challenges in the public interest have secured change to law and policy, improving the *lives of countless people*.

“A Law Centre NI case before the Court of Justice of the European Union resulted in a landmark judgment, which established that access to the NHS meets the requirement for EU citizens in the UK to have Comprehensive Sickness Insurance in order to be entitled to social security support. This impacts not only our client, but thousands of EU citizens in the UK”

Employment Rights

LCNI works to uphold the employment law rights of workers across NI and to challenge unfair employment law practices. With a particular focus on labour exploitation and protecting the rights of insecure workers, we provide an essential support to people who would otherwise be unable to seek redress.

“We supported a client who was dismissed after asking for payslips and an employment contract. The case settled for £20,000, providing a financial cushion for a client who had suffered years of financial hardship and which meant he was able to put his life back together”

Alongside our legal and policy work, we are constantly seeking to ensure that the advice sector and others are equipped with the information and support they need to deliver their services and that there is a future pipelines of social justice lawyers who will carry our work into the future. Our Engagement Team is always looking for new ways to help people to harness the power of law.

Training & Professional Learning

LCNI understands that everyone needs to be able first to know their rights to be able to uphold them, so we produce public legal education resources to help people understand the law. Our training ensures that people working across communities can understand the impact of changes to law and policy on the people they support.

Legal Education

We partner with the Law School at Queen’s University Belfast to deliver a Clinical Law Programme for final year law students so they can gain vital experience of social welfare law work to shape their future career choices.
